

# Mobile Carton Flow Rack

## KDR Light & Flex

### More flexibility & efficiency in your warehouse

The mobile carton flow rack has a stable transport trolley equipped with two lockable swivel castors and two fixed castors. KDR optimizes the picking process. Improve ergonomics by reducing the amount of bending and reaching for products. Required assembly or work material can be brought directly to the workplace. This will boost productivity in your warehouse.

KDR mobile racks are delivered fully assembled and can be easily integrated and added to existing shelving systems and installations.

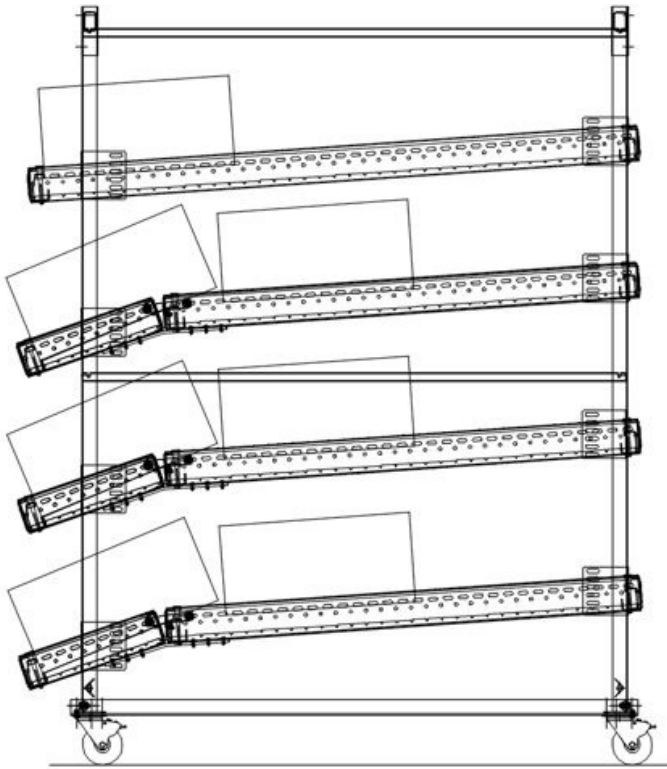

### Advantages

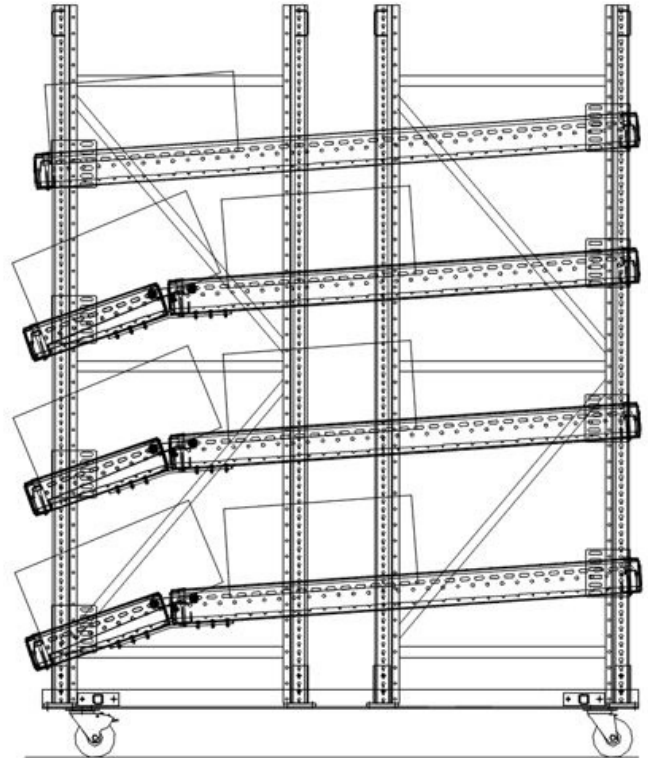

- ✓ Customized layout of roller tracks and guide rails
- ✓ Flexible use by simple moving
- ✓ Ergonomic working
- ✓ Height-adjustable levels at intervals of 25mm
- ✓ Cost optimization
- ✓ FIFO and LIFO principle
- ✓ Produced in Germany
